

Graded Supination and Pronation with Weight Hand Therapy

Start with the low weight and slowly increase when you don't feel as much pull. Make sure that the weight is not too heavy. Monitor your posture to ensure you are not leaning, to enable you to get the best out of the exercise. Can be useful to do this in front of a mirror. Make sure you have good grip of your weight. Slowly from neutral turn palm up, hold, then slowly turn palm down and hold - repeat and hold as advised.

Newspaper / magazine rolled or hair brush

Rolling pin or broom handle

Posture

- Elbow tight into side
- Check you are not leaning
- Make sure you have good grip of the weight
- Make sure the weight is not too heavy

Small hammer weight (no heavier)

Please complete			Times a day
Holding each position			Seconds
Repeat			Times

Further Information

We endeavor to provide an excellent service at all times, but should you have any concerns please, in the first instance, raise these with the Matron, Senior Nurse or Manager on duty. If they cannot resolve your concern, please contact our Patient Experience Team on 01932 723553 or email asp-tr.patient.advice@nhs.net. If you remain concerned, the team can also advise upon how to make a formal complaint.
