## Contact details for the Diabetes Nurses

Telephone: 01932 723314

All email enquiries: [asp-tr.generalpaeddiabetes@nhs.net](mailto:asp-tr.generalpaeddiabetes@nhs.net)

## The Paediatric Diabetes Service

The Paediatric Diabetes service offers a full range of diabetes care to meet the individual needs of our patients including:

- ✓ Outpatient clinics and follow up
- ✓ Telephone and email support
- ✓ Community diabetes care, including home and school visits
- ✓ Continuous Insulin Infusion Systems (Pump Therapy)
- ✓ 24 hour access to support and care
- ✓ Transitional Care moving from children's services to adult care
- ✓ Parent support network and training
- ✓ Educational meetings
- ✓ Virtual download clinics
- ✓ Psychology Support
- ✓ Dietetic Support

### Outpatient Services

Paediatric Diabetes Outpatient Clinics take place on: Tuesday mornings and Thursday mornings at: The Stephanie Marks Diabetes Centre, St Peter's Hospital.

Children are reviewed by the diabetes team every 10 to 12 weeks or more frequently if necessary.

### Community Services

The Paediatric Diabetes Nurses may arrange to visit you at home to give advice and support as well as arranging visits to nurseries, schools and other organisations to give specialist diabetes advice and support.

### 24 hour access to support and care

Telephone and email support is available Monday – Friday during working hours by contacting the Paediatric Diabetes Nurses.

The Paediatric Diabetes Nurses endeavour to reply to all calls and messages as soon as possible. However, please be aware, it is not an emergency service and responses will take place by order of medical priority. If you require urgent diabetes advice outside of office hours, please telephone St Peter's Hospital - **01932 872000** and ask the switchboard operator to bleep the **on-call Paediatric Registrar**.

## Mental Health and Wellbeing

Your family can access support from our clinical psychologist or psychiatric liaison nurse at any point while they are under the service. If you feel that this would be beneficial, then please discuss it at your next clinic appointment or contact one of the diabetes nurses who can discuss this further with you.

## Transitional diabetes care

This service prepares children and young people to transfer, when appropriate, to adult diabetes services.

Preparation for transition is a long process and research suggests the earlier the process starts, the more successful transfer to adult services. Transfer to adult services usually takes place from 17-19 years and is based on individual need as well as age. Both Paediatric and Adult Diabetes Teams attend these clinics in order to help with the adjustment.

## Contact Details

### Paediatric Diabetes Nursing Team:

Office hours (excluding Bank & Public Holidays):  
Monday – Friday (08:00 – 16:00)

Telephone: **01932 723314**

## Further Information

We endeavour to provide an excellent service at all times, but should you have any concerns please, in the first instance, raise these with the Matron, Senior Nurse or Manager on duty. If they cannot resolve your concern, please contact our Patient Experience Team on 01932 723553 or email [asp-tr.patient.advice@nhs.net](mailto:asp-tr.patient.advice@nhs.net). If you remain concerned, the team can also advise upon how to make a formal complaint.
