You were discharged by

Any stitches you have are dissolvable.

Do not rinse or spit on the day of surgery.

Do not exercise or take part in sports for 48 hours after surgery.

Your mouth will feel numb for at least 3-4 hours after surgery, please avoid biting your lips and the inside of your cheeks.

Ice packs placed against your cheeks is soothing and can help reduce pain.
You may notice some blood staining in your saliva.

If you notice an active bleed then please apply pressure to the bleeding site using the gauze provided, if it doesn't stop after 15-20 minutes please attend RSCH A and E.

It is normal for your mouth to feel swollen and sore over the next few days. If after this it suddenly becomes swollen, painful, if you get a temperature and feel unwell, please go to see your dentist as this is a sign of infection.

Only a soft, cool diet and fluids for the next 48 hours. If you have had surgery on one side of the mouth, eat on the other side. Avoid using a straw.

Starting the day after surgery, dissolve one teaspoon of salt in the glass of warm water. Allow the water to rest in the mouth over the wound for about a minute. Repeat several times a day for 1 week.
